Powerful stuff **indeed** from one of the World's TOP Internet Marketers ;-)

But what's the benefit **to you** of having massive traffic?

Let's do a little math...

Let's say for example that you have a website which sells an eBook for \$40.

Your website gets an average of 100 clicks per day, and 1 out of every 100 people decides to buy your eBook.

That would equal to roughly 30 sales per month, which would equal to \$1200 per month (30 sales X \$40 per sale = \$1200).

Here's what happens when you add extra traffic into the mix:

An extra *100 clicks per day* would raise your monthly income to **\$2400...**

An extra *200 clicks per day* would raise it to **\$3600...**

An extra *300 clicks per day* raises it further to **\$4800!**

And this is all very possible and a lot easier than you think- *we're talking just 1% conversions here.*

You can even add *1000 extra clicks* per day if the product you're selling is targeted at a hot market... (just an FYI: that would bring our monthly income from **\$1200** to **\$13,200!**)

Alright, so how exactly can you get an extra 10, 20, 100 or even 1000 extra visitors a day to your website?

Well, there are a number of effective ways to do it...

- **Search Engines**- getting your traffic directly from the search engines...
- **Pay Per Click advertising**- paying every time someone clicks on your add and actually visits your website...
- **Banner Advertising**- using banner ads on other peoples websites to promote your site...
- **Using Articles and other content**- writing articles and pasting them all over the internet while including a link to your site in the authors information...
- **Link Building**- getting other, similar websites to include links to your website...
- **Blogging**- setting up a blog on the same subject as your website and having links to your site all over the blog...
- **Email Marketing**- sending out targeted blasts to an opt-in e-mail list...
- **Viral Marketing Campaigns**- having your website spread by word of mouth, emails between friends and other viral methods...
- **Affiliate Programs**- getting other people to promote your website in exchange for a commission on every sale they make...

And that's not all! There are even more effective ways to drive insane amounts of traffic to your website, and they are all outlined and explained in detail in
