

Two Top Internet Marketing PLR Specialists Ask:

"Who Else Wants To Be Handed A Full-Blown PLR Business On A Platter, Without Doing A Lick Of The Hard Stuff - Just Point And Profit?"

You are about to be handed a PLR package of goodies so unique, so powerful ... that our competitors have actually asked us if we have lost our freaking minds!

Dear Friend,

All successful businesses share one universal, common trait:

They use the resources and hard work of others to create streams of income and massive wealth- without much risk- for themselves.

This is called leverage, of course.

But the really, really successful ones take it one step further- they start from a position of power, with a ready made business, expand and add to it, and turn it into a cash-sucking MONSTER that's uniquely theirs.

That's Super-Leverage ...

Think of it like this:

Say you decide to build a house in the interest of reselling it for a profit.

After spending thousands on drawings, negotiating the insanely complex permit process, you hire subcontractors and get started.

After dealing with hundreds of headaches, struggling to meet budgets, and months of false starts and delays, you are finally ready to list the property, and start negotiating with buyers.

That's when you find out that the house you spent a year and hundreds of thousands on is only going to net you around 6% profit after all is said and done.

Ouch.

Now on the other hand, you could do it completely differently.

Say you look around and you spot a house that needs a little cosmetic work in the same area...

After picking it up at twenty thousand or so under actual value, you stick a few grand in it, and put it back on the market in a month or two.

Because it looks so good, and the value is clear, you sell it in just days, for a nice fat margin over the appraised value.

And after all the dust settles, you find that because you didn't lay out huge sums out of pocket, or have to eat the juice on a construction loan...

You made 20% profit. In a month or so. Without all the risk and stress.

Nice.

Now that's super-leverage in action.

And that's what PLR Profits is all about!

We are willing to give you a chance to leverage our hard work and sweat into a risk-free business of your own, and you don't have to do a single lick of real work at all.

What could you make?

Let's do a little math here, ok?

We'll start with PLR Articles and do a what-if...

What would happen if we packaged up these hot, cash sucking articles into different niches and sold them as individual memberships for, say \$4.95 a month each like this:

Number Of Members	100	200	300
Monthly Profit at \$4.95 PM	\$495	\$990	\$1485
Monthly Profit at \$9.95 PM	\$995	\$1990	\$2985

Think it would be difficult to sign up 100, 200, or even **300 members** a month for a super high quality article package like this? **Nope.**

So that's a very realistic \$1500 a month, and we haven't even scratched any MRR or PLR rights sales at all.

Now let's look at My KW Cash...

Imagine if you **split up each list into its own niche.** Then create a fast and hard hitting minisite to promote a monthly membership for each list.

Sell them each for \$4.95 per month. I mean, that's the kind of money that people don't even think twice about spending, and usually forget they're even being charged, so cancellations are few and far between.

Here's a quick look at what you could soon be doing with just 1 of these lists...

<u>Number Of Members</u>	100	200	300
Monthly Profit At \$4.95 PM	\$495	\$990	\$1485
Monthly Profit At \$9.95 PM	\$995	\$1990	\$2985

Would it be hard to grab 100, 200, or even 300 members for highly targeted and profitable keyword lists? **Not at all.** I've seen bigger member sites that cost more and offered far less value!

And, if you really want to make the money... add a little monthly report, or some other bonus and ask \$9.95 per person per month... **or even more!**

We're talking hundreds or even thousands of dollars a month in potential income for you, all while you satisfy your customers' burning desires, and build your reputation as the go-to Keyword Guru...

And remember, we are only talking about 1 of your lists. You're getting 20!

And once again, you don't have to do anything you don't want to- you are the King. You OWN this stuff. PLR. It's yours to do with as you please!

Alright then- that's another \$1500, and once more, we aren't even talking about the sales of any rights yet. \$3,000 a month, easy-peasy.

Add in all the various other combinations, and **5 figures a month** in smoking hot cash income could very easily be yours. And we did all the "work" for ya...

Now Do You Get It ?

"Profit House" my Ass.

This is more like a "Profit Apartment Building".

And we are willing to not only build it FOR you and hand you the key, we will also show you how to make massive cash with it.

But nothing happens at all unless you take the next step.

We can build you whatever we want, set up a massive bundle of hot products and resources like this, and literally hand it to you for a song...

But it don't mean squat unless you walk up and

Turn The Key In The Door.

Ok then...This is where the rubber meets the road.

Any ideas what our testing revealed would be a **fair price** for an incredible package like this?

If you guessed \$97 a month...you'd be WAY low.

Try **\$297 a month**.

For a payoff of up to \$3000 with almost NO effort?

That's a no brainer, kiddo.

But we wanted to give a little back to the community. To keep this powerful service within the reach of everyone.

And that's why we decided that we were going to make this SO inexpensive, so brain-numbingly reasonable...

That you would have to be blind to pass on this.

For a very limited time, and only until all the slots fill in our first placement, we are going to let you have this incredible, power-packed embarrassment of riches, the literal **sweat of our brows** for you to plunder and profit from, for the insanely low price of just...

\$29.95 A Month.

Yup. **No typo.**

\$29.95 a month earns you the right to **utterly rip us off**, and claim our hard work for your own. Put your name on it, resell the rights, whatever.

You are the Guru. And your customers are going to think you are a genius.

But I kid you not- this is not going to last. Not the price **OR** the availability.

So if you have gotten the picture here, and I know you have, you need to act, and **act fast** before all the slots are filled, and you are waiting in line for an opening.

Get going, and let's get **rocking**...
