**Learn To Leverage The Sweat Of Others Into Whopping Streams Of Cold, Hard, Cash,
And You Will Have Learned The One Big Secret Of Every Millionaire Since Time Began ...**

Oct 13 2009

My Dear Friend,

Let me tell you **a tale of two marketers**, we'll call them **Dick and Jane**...

Both of them were building websites designed to sell something, a product of some sort.

Both had learned that a **sure-fire** way to drive traffic to their sites was by writing good articles and distributing them to various article directories.

Both were even pretty decent writers.

Fast forward six months ...

Dick's site is doing pretty well, I guess - he takes in a couple of hundred a month in orders, and another hundred or so in AdSense revenue.

But, he writes content for his site pretty much all the time to keep it fresh, so he's writing and posting several hours a day. He has to in order to keep his ranking and indexing up to snuff.

But Jane, well her site...whoops! I meant her Network of **SIXTY** sites, well they take in over \$10,000USD a month from all sources, sometimes more...

And she only spends several hours a WEEK working on them.

Can you guess what the difference between the two is?

If you guessed **leverage**, you'd be dead on.

The Crowbar

See, Jane figured out early that she couldn't do it all herself and build a business that would throw off the kind of **sweet cash** she was looking for.

And she discovered the incredible power of **Private Label Rights**.

While Dick was working his fingers to the bone researching and typing, then manually submitting, rinsing and repeating, over and over for just one site...

Jane purchased cheap, **professionally written articles** in quantity for her sites, and now she just sits back and watches the cash roll in.

Are you getting the idea here? The **power of PLR** is leverage.

The idea that you take the effort of another and leverage it into **time saved** for yourself, and channel the time saved into other areas, like building more sites to **exponentially** increase your cash flow!

I know it's not going to be news to you that you need good content and a steady flow of written material to keep your websites fresh.

Trouble is, it takes an incredible amount of time to do that, time that would be much better spent doing other things.

And I bet you would jump at the chance to use this kind of powerful strategy yourself- provided you could get the content **written well** and reasonably priced, right?

Well, this is your lucky day- That's where WE come in...

Now how much leverage is that? You could set up <XX> cash sucking, content packed authority sites a month with this powerful material while barely typing at all yourself.

Just pop up a site, add keywords and articles from this sensational resource, sit back, and cash the checks.

But wait...it gets MUCH better than that...

The Super CrowBar

What if I told you that you will get full rights to these articles too?

That's correct, you can turn around and put YOUR name on them, package them however you like, and sell them to YOUR customers and keep 100% of the profits!

Now that's HUGE leverage, and how you make the **Serious Cash**.

You're always looking for top quality content for your sites, right?

Sure you are - it's a constant battle for anyone building sites and marketing online. And clean, high quality written content is very hard to come by.

Well guess what? **So are Your Customers**. And they will jump at the chance to get these **gold nuggets**...

You will instantly become the go-to guy or gal, the PLR Prince/ss! You're **the connection**, with the goods they need, and they will beat your door down for material of this quality.

Just think of the possibilities- sell just <XX> of these killer articles and **pocket the cash**, and your membership is paid for. But that's **small time thinking**, my friend.

This doesn't have to be a one-off deal, you know...

Why not sell memberships of your own? You have full rights to the material after all ;)

Let's do a little exercise, shall we?

What would happen if we packaged up these hot, cash sucking articles into different niches and sold them as individual memberships for, say \$4.95 a month each like this:

Number Of Members	100	200	300
Monthly Profit at \$4.95 PM	\$495	\$990	\$1485
Monthly Profit at \$9.95 PM	\$995	\$1990	\$2985

Think it would be difficult to sign up 100, 200, or even **300 members** a month for a super high quality article package like this? **Nope.**

I see much larger membership sites all the time priced higher than this and with VASTLY inferior products.

And at that price, most people won't even think twice about giving it a go, and they oftentimes even forget they are being charged, so cancellations will be few and far between.

See, people are desperate for quality content at a reasonable price and at \$4.95 a month, well, let's just say there won't be much objection based on price.

And you could add a short targeted report or two every month and bump the price up to \$9.95 or

even higher. The possibilities are endless, and you will quickly become a huge asset to your customers as you become known as a quality vendor, the PLR Guru.
